

R&D Snapshot

Redevelop ProHand

Investigators: Grahame Coleman, Paul Hemsworth, Jeremy Skuse, Tammie King, Vanessa Rohlf, Tiffani Howell

Purpose:

- To further develop and produce updated versions of ProHand Pigs and ProHand Pork Abattoir programs.

Take home messages:

- Endorsed by Temple Grandin ProHand is a computer based training program which uses a cognitive-behavioural technique to target and change the attitudes of stockpeople towards their animals.
- ProHand is now delivered via the internet, with each trainee undertaking the program with no input from a trainer or peers.
- ProHand Pork is now freely available for all members of the Australian pork industry, with ProHand Pork Abattoir soon to become available.
- To obtain log in details for ProHand Pork please contact Ashley Norval.

Additional information:

- Contact Ashley Norval at ashley.norval@australianpork.com.au or 02 6270 8823 for further information on ProHand or to obtain your log in details.
